Hello,

I am the new internship coordinator for the Office of Congressman Raul Grijalva. Our office is currently accepting internship applications. This opportunity is open to all undergraduate students but give preference to juniors and seniors. The internship is a wonderful way for students to get involved in the community and learn firsthand how the federal government works. Interns are a vital part of our office and we look for ambitious students to help us. Although this is an unpaid internship, we will work with advisors in order for students to obtain college credit. We welcome any major.

Internship benefits include: Close interaction with both the Congressman and staff, opportunity to attend community events, college level credit (if applicable). Responsibilities include: assisting with constituent casework (intake), assist district staff with special projects, responding to requests for information and writing constituent correspondence.
